## REASONS FOR ALLOWANCE

1. Based on applicant's amendment, filed 12/16/2005, see page 8 through 12 of the remarks, with respect to amended claims 1-8, 10-13 and 15-20, have been fully considered and are persuasive and upon further consideration the art rejection of 35 U.S.C. 102(e) and 103(a) for claims 1-8, 10-13 and 15-20, are hereby withdrawn.

2. Claims 1-8, 10-13 and 15-20, now renumbered, as 1-18 is allowable.

3. The following is an examiner's statement of reasons for allowance.

The instant invention generally relates to imaging system and more particularly to a method to improve the display of temporal changes.

With respect to claim 1, based on applicant amended claims, the closest prior art of Xe and Song do not disclose or suggest, among other things, "a comparison module adapted to receive segmentation signal and registration signal, comparison module further adapted to generate therefrom an adaptive comparison signal of first image signal and second image signal, wherein comparison module further adapted to generate adaptive comparison signal of first image signal and second image signal and second image signal through an enhanced division method including,  $(S1 * S2) / (Sg * Sg + * 1)$ .

Additionally with respect to claims 10 and 17, the closest prior art of Xe and Song do not disclose or suggest, among other things, "registering at least one region of interest wherein registration further comprises registering a major region of interest of object within first image signal and second image signal through at least one warped transformation criterion including multi-region, multi-scale, pyramidal logic, wherein the method comprises highlighting changes between first image signal and second image signal with a different cost function at each of a plurality of scales generating a registration signal.

These key features in combination with all of the other features of the claimed invention are neither taught nor suggested by (Xe and Song).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
